

I am very disturbed by the proposed expansion to allow LPFM stations to take priority over current FM translator service. I am a faithful listener to K-LOVE(FM 88.1). I tune in every day for the positive, encouraging songs and comments. K-LOVE allows me the opportunity to worship God daily through music. It also allows me to keep my focus on positive things. K-LOVE is the only local channel that I can leave on regardless of who is in my home. I have two teenagers and six daycare children ranging from six years to 14 years. I am never concerned that the content of K-LOVE is inappropriate for any of these age groups. K-LOVE is only one of two local channels that we have access to here in Bellevue that are positive. K-GBI is programed for adults and doesn't have the mostly music format of K-LOVE. K-LOVE appeals to adults, teens and children. It is a radio station that the entire family can share together. K-LOVE is the only Station FM or AM that appeals to all ages in this area and throughout the country as a whole. There are no other stations on the air that are geared for all ages. Please don't take this service from this area.
